

The background of the slide is a photograph of a mountainous landscape, tinted in various shades of blue. The foreground shows a dark, forested hillside. In the middle ground, there are rolling hills covered in dense evergreen trees. The background features several layers of mountain ranges, with the peaks becoming progressively lighter and more hazy as they recede into the distance. The sky is a pale, clear blue.

Group Three

Our View of what is Important

Votes	Issues/Comments
16	Have a status indicator (pop-up bar) - Ben Wear
15	Improve Help Desk Support - Have a live person answering the phone.
14	AQS sysem does not sort an extract - Bill Kotasek
14	Online documentations for methods, null data qualifiers, and many other fields - Laura Wilson
14	AQS bulletin board for questions and answers - Joe Mashburn
13	Quick Look Report
12	Query by date - Laura Wilson
12	Paging down in a query is slow - Josephine Ball

Votes	Issues/Comments
9	P & A support - Help desk personnel should be able to held with P & A questions. Melinda Haskins
9	Save criteria cross report - Be able to use the same parameter for different report - Pam Haskins
9	Define algorithm - Laura Wilson
